

# Lab Tests Online<sup>®</sup>UK

**Lab Tests Online-UK** is a website developed and maintained by voluntary NHS clinical laboratory professionals. The aim of Lab Tests Online-UK is to improve the health of patients by increasing their understanding of laboratory tests.

**Lab Tests Online-UK** provides the following:

- detailed descriptions of tests
- descriptions of illnesses, cross-referenced to relevant tests
- news on advances in laboratory testing
- links to other free internet services that can help answer questions about your health and treatment.

**Use the information on  
Lab Tests Online-UK to be  
better informed about  
your tests and your  
health care**

[www.labtestsonline.org.uk](http://www.labtestsonline.org.uk)

Use the tick boxes to identify which tests your doctor has requested for you. Then look up the tests on our website at **www.labtestsonline.org.uk** to learn more about why the test has been requested and what the results mean.

We have listed some of the more frequently requested tests. If a particular test is not listed, just write it on the blank lines and look it up on the website.

Download our free mobile app via our homepage.

- APTT
- B12 / Folate
- Bilirubin
- Calcium (Ca)
- CA-125
- Cervical screening
- Cholesterol (Chol.)
- Creatine kinase (CK)
- Creatinine
- C-reactive protein (CRP)
